Please file my comments into the docket for case #14-297-EL-SSO

I am opposed to First Energy's proposed Purchased Power Agreement to bailout their failing power plants. If First Energy's plan passes, it will essentially allow the regulated and guaranteed profits ( which we already pay ) from First Energy' distribution companies to subsidize two unregulated and unprofitable power plants.

Sincerely, Rachael Tatum

It's really unfortunate that a company of first energy size that they would sneak around and play the games both legally and political just to fatten their bottom line and have their customers pay for their bad decisions.

I oppose First Energy's latest rip-off of the consumer.

I am tired of paying for their total lack of management and greed.

I'm also tired of PUCO rubber stamping any garbage that FE comes up with to cover their total lack of management and greed.

I am, unfortunately, an All Electric Rip-off Customer aka dupe. I totally agree with CKAP and support the fight against the FE marauders.

Enough is Enough.

I am strongly opposed to First Energy's proposed Purchase Power Agreement to bail out their failing power plants. I have been subsidizing their mismanagement and greedy policies for over 40 years!! Mr. Alexander did not invent Electricity. First Energy got what they wanted in the past and made bad choices. The little people pay. And pay! I am stuck in an all-electric house doing the slow death of rate increases with discounts expiring. Time to head South.

Regards, Mike Mosher
