**Subject:** Increased rates

file my comments into the docket for Case # 14-1297-EL-SSO

I am against the rate increases. The PUCO is supposed to protect the consumer but continues to allow the rate increases to skyrocket in a time when people are hurting financially the most. The electric rates are out of control already, and an increase on top of current rates will put an unfair burden on the consumer. Where does it stop? How much is enough for these companies? Greed has taken over and it needs to stop.
