To Whom It May Concern,

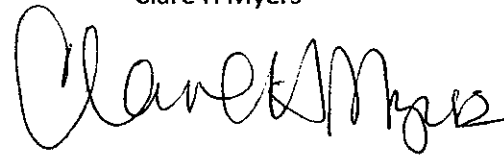

I am writing to STOP THE BAILOUT. Do not allow utility companies to raise rates to lock consumers into buying power from Ohio's oldest and dirtiest coal plants. A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energies.

I pay my bill to Duke Energy and if my rates must go up I would rather it be to fund investment in renewable energies. I care about reducing toxic pollution for my kids futures, and all future generations.

This is regarding case number 14-0841EL-SSO.

Sincerely,

Clare H Myers
