RECEIVED-DOCKETING UNIT

PUCO

Please deny the rate increase
to lock consumers into buying from
ENR's oldest, dirtiest coal plant.Toxic air effects all of us! It
affects everyone's health and
well being. (children, elderly, even
pets) grrrr!!Why would we want to patch
up a polluting old technology?
It certainly would be wiser to
invest in a newer, better, cleaner
technology that would result in
greater air quality and health
forall. Get with it: upgrade(We upgrade our cell phones, computers,
cars, etc - That's smart - !)During 30 years of teaching - I experienced
many children with wheezing, chronic
respiratory lung disease. The
poor air quality is a great
part of the problem.Air quality is a problem in
this state and has been for a long time!"IT STINKS"lets fix it - NOW

Sincerely, Sharon Cica
