

1/3/15

To whom it may concern,

As a Citizen of Ohio, I am upset at the frequent use of non-renewable energy in my state. The use is so frequent that my home state has the third worst air pollution in the whole country. I refuse to bailout old energy plants, which just makes our problem in Ohio worse. Big companies such as Duke Energy are the reason that Global Warming is such a big problem facing the world today. If we don't start using clean energy now, the world will be a very different for our children.

Thank You for taking the time to read this letter,

Bern Genin
