My family and I care deeply about a cleaner environment and reducing toxic pollution with all its adverse effects.

We also feel that, ^{our} electric bills to the Illuminating Company are getting out of control. And Higher Energy costs are burdensome.

We are strongly against the PUCO getting a bailout and passing on even higher rates to consumers to pay for improving outdated and inefficient coal plants.

and inefficient coal plants.
There must be more effort & investment
building more efficient and renewable energy
sources.

To Whom it may concern
at P.U.C.O.,

I am writing in hopes that this letter may be seen by someone who actually cares about the quality of life in Ohio.

However, I'm not getting my hopes up.

Honestly, folks - considering you have a monopoly on the Energy supply around here - don't you think, with all of your bazillions of dollars, that perhaps - just perhaps you might be capable of updating and maintaining your facilities?

I imagine we share the same planet, though

Sometimes I wonder...
and therefore you may
be aware of the terrible
economy and the lack of
jobs, despite happy reports.

Do you suppose
you could find it in your
hearts to take responsibility
for your business and
give the little guy a break?

I mean, Jeeze...
just sayin'...

Mrs. P. O'Keefe

P.S.

This letter is in regards to
case number: 14-1297-EL-550

1053 Forest Clift
Lakewood, OH

Urgent deadline: Comments due now

Let the Public Utilities Commission of Ohio (PUCO) know that consumers are not going to stand for a bailout of the state's outdated coal plants.

Please write the PUCO

Comments from ratepayers and business owners are incredibly important and best if written in your own words. Here are some points to get you started:

- Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants.
- I pay my bill to... and I care about this issue because ...
- My family and I care about reducing toxic pollution and saving money on our electric bills.
- A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

IMPORTANT: Remember to include the case number for FirstEnergy **14-1297-EL-SSO** in your letter.

Please address your letter to:

CLEAN AIR IS IMPORTANT TO ME BECAUSE
MY SISTER AND I ARE YOUNG, AND THE
CHOICES OF TODAY EFFECT OUR TOMORROW!

Dec 12, 2015

Attn: Public Utilities Commission of
Ohio,

I am a rate payer who
cares about reducing toxic pollution
& saving money on my electric
bill. I do not think that we
consumers should pay charges
related to the power plants, a
bail out of old polluting technology
only benefits utility shareholders
and delays investment in efficiency
and renewable energy. Please
help us save money on our
electric bills.

yours Truly,
Gayle Fisher

Hi,

My family & I were about
reducing toxic pollution and
saving money on our electrical
bills.

Thanks,

Nick Lotz

Dear Sirs of the PUCO,

I care about my children's and grandchildren's environment in the future and my environment in the present. Please put aside all political considerations and deny the rate increase to lock consumers into buying power from the old coal plants.

I want my descendants to look forward to a future where they are not afflicted by emphysema and bronchiole attacks.

Regards,

Attention; PUCO

RE, FirstEnergy (14-1297-EL-SSO)

As a consumer I find it disturbing that the PUCO would allow FirstEnergy, one of the oldest and most polluting organisations to raise rates and the same time continue to destroy our air quality.. My family and I really care about environment and at the same time finding a way to use more efficient means to save my family money..

Thank you in advance,

Bernie Hicks

CASE # 14-1297-EL-SSO

1/5/2015

DEAR PUC,

PLEASE DENY THE RATE
INCREASE TO LOCK CONSUMERS INTO
BUYING POWER FROM OHIO'S OLDEST,
DIRTIEST COAL PLANTS. I PAY MY
BILL TO THE ILLUMINATING COMPANY &
I CARE ABOUT THIS ISSUE BECAUSE
IT WILL COST MORE FOR CONSUMERS SUCH
AS I. MY FAMILY & I CARE ABOUT
REDUCING TOXIC POLLUTION & SAVING MONEY.
A BAILOUT OF OLD, POLLUTING TECHNOLOGY
ONLY BENEFITS UTILITY SHAREHOLDERS
& DELAYS, INEVITABLE INVESTMENT IN
EFFICIENCY & RENEWABLE ENERGY.

Columbus, OH 43215

Dear Officials of PUCO,

We are writing to ask you to refuse the rate increase requested by Duke Energy, AEP, and First Energy. At this point, coal plants phased out, not subsidized. They are outdated, and they pollute the air, so PUCO should look to invest in newer, cleaner methods of producing energy.

Sincerely,

James and Jeanne Stephens

Concerning First Energy 14-1297-EL-550

Dear Public Utilities Commission of Ohio,

It concerns me that public money would be spent for this issue.

It seems to me that this money would be better placed with new technology research. I want the air to be cleaner, more healthy, less stinky.

Anthony

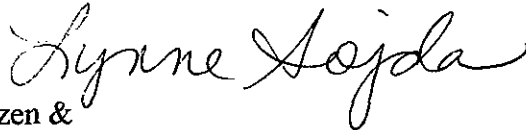

December 30, 2014

Lynne Sojda
165 Linwood Lane
Aurora, Oh 44202

To whom it may concern:

I have concerns about a recent issue about which I have been informed. It is my understanding that First Energy (case # 12-1297-EL-SSO) can impact our environment and my personal finances in the near future. Buying power from Ohio's oldest and dirtiest coal plants will increase my electric bills. Investment in efficiency and renewable energy is needed for us to face the future in a competitive way. Don't delay. Companies will delay until more harm is done than good. Be a force to push through change for the betterment of Ohioans.

Sincerely,
Lynne Sojda

Attention Case Number 14-1207-EL-ESSO

180 East Broad Street

Columbus, Ohio 43215

Dear PUCO,

As a person who struggles with respiratory issues I appreciate clean air now. As a parent of 4 and a grandparent of 3 I am extremely concerned about the air the next generations breathe. I care about reducing toxic pollution; however, I also care about saving money on our electric bills.

I believe shifting the cost of outdated coal plants to the consumers by raising our rates is unfair since I believe in 1999 we already paid for the transition to deregulated power plants. Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants.

A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

Sincerely,

A handwritten signature in cursive script that reads "Carol A. Liston".

Carol A. Liston

30601 Willoway Lane, Bay Village, Ohio 44140

To the Public Utilities Commission
of Ohio,

My family and I care a great deal about reducing pollution and saving money on our electric bills.

A bailout of old, polluting technology that ^{also} increases rates for consumers is simply unacceptable.

Please refer to case # 14-1297-EL-SSO

Please vote to protect
the environment & consumers,

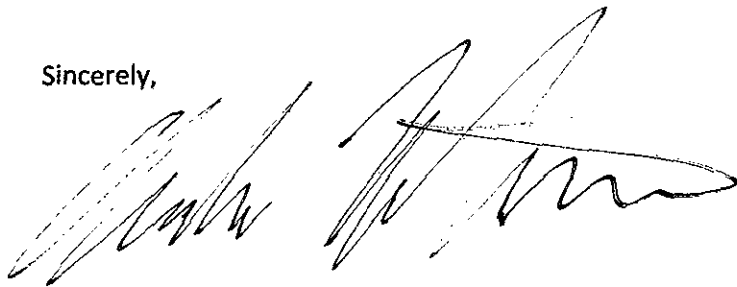

Laura J. J. J. J.

Dear Public Utilities Commission of Ohio,

I have done research at Washington University in St. Louis about sustainable air quality. The Ohio River Valley is known for its outdated and dirty coal energy production. This contributes to some of the highest pollution levels in the nation, as well as acid rain production/high pollution levels on the East Coast.

If given another break, like the First Energy case 14-1297-EL-SSO, the energy providers would have no incentive to update their plants or even switch to another energy source. Although I would prefer to move away from fossil fuels I think switches towards natural gas would be better than the current coal. Sustainable energy sources such as wind, solar, or further investment in nuclear would be better for the environment and future generations.

Sincerely,

A handwritten signature in black ink, appearing to read 'Andrew C. Martahus', written in a cursive style.

PUCO,

This letter is in reference to case number 14-1297-EL-SSO for FirstEnergy. I am a life long Ohio citizen that loves my state. I feel that it would be unfair and unjust to ask consumers to pick up the tab for big energy companies(FirstEnergy) irresponsible practices. Coal isn't the answer, so why should we kick the stone further down the road. As Ohioans why bailout old environmentally unfriendly technology and not reward renewable energy. I'm NOT thrilled that Ohio is near the top of the list when it comes to air quality. If the bailout is granted will we be in the same situation 10 years from now? Big energy asking citizens for more money to meet epa guidelines which they should be doing themselves in the first place.

Concerned citizen,
Michael ward
