Subject: Case # 14-1297-EL-SSO

Hello,

I am writing to oppose the increase in our rates from First Energy. I have an all-electric home an you have already screwed me on my all electric discounts. Now you want to allow the same company who broke the all-electric discounts to male us pay more money? More money for their failure in their plan to deregulate to make them money!!! Just because they are a corporation does not mean we should be bailing them out like the banks. If they screwed up, then let them fail and take responsibility. Why should we be charged more to help them out? They have this grand 15 year plan. Well I would like to see the crystal ball they used for that. This is total non-sense and this should be a no brainer. You SHOULD VOTE NO.

Thank you,

Alan

PS: Today is one of the coldest days of the year. So to keep my energy bill down. I had to turn off the up stairs heat pump and cut back on the first floor to a warm 64 degree's. Tell first energy my kids love walking around in coats. Thanks for your support.....
