180 East Broad Street
Columbus, OH 43215

Dear PUCO,

Please deny the rate increase to lock consumers into buying power from Ohio's oldest and dirtiest coal power plants. Like other homeowners, we're tired of paying hundreds of dollars a month to prop up old, decaying infrastructure at the expense of technologies that could provide the same energy with greater efficiency with less environmental impact.

As parents, we don't want our children dealing with the same energy policies and same environmental and sustainability issues that we're facing today only another 30 years down the road. Please do not approve these rate increases.

Sincerely,

Nicholas Sansone

Case # 14-0841EL-SSO

My family and I care about reducing toxic pollution and saving money on our electric bills. My salary does not increase like my bills due to old polluting technology.

Sincerely,

Ann Henning

To PUCO,

We are a couple in our sixties and
concerned about rate increases being proposed.
Especially the monies supporting old
technology with polluting of our rivers
and skies. Investments in efficient
energy sources or renewable energy
sources would greatly help Ohio's future.
Please be responsible with our money
that we work hard to gain.
