Dear Sir:

Please file the following into the docket for Case # 14-1297-EL-SSO.

I would like to state my opposition to First Energy's proposed Purchased Power Agreement to bailout their failing power plants.

As an all-electric homeowner, I was short changed a few years ago by First Energy's going back on its promise of discounted electric rates to the all-electric community. This appears to be just another First Energy effort to maintain their monopoly in the area by keeping fair competition at their mercy and dumping their mistakes on consumers.

If I am not able to attend the hearing for the FES bailout request on January 20, 2015, I will be there in spirit and opposed to the bailout. Please consider how this agreement would affect all consumers, but in particular those with all-electric homes. Don't give in to them again!
