Re: Case # - 14-0841EL-SSO

January 12, 2015

TO: PUCO

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. It is imperative that the State of Ohio becomes focused on renewable and clean energy for the future - lead the way and be an example to not only the other states, but the other nations - invest in technology that also benefits the consumers. Please use the power that you hold to do what is best.
