COMMENT DESCRIPTION:

In regards to case 14-1297-EL-SSO;

I do not support First Energy's Electric Security Plan that will shoulder Ohio consumers with a multi-billion dollar bail out of their inefficient and costly Davis Besse nuclear plant and outdated and polluting Sammis coal fired plant. The ESP violates current Ohio deregulation law by not competing in the energy marketplace by investing in alternative energy resources as required by Senate Bill 221. It makes a mockery of the Clean Power Plan that promotes reducing carbon pollution from power plants. The ESP endangers all living creatures by funding and expanding nuclear and coal energy production, polluting our air, water and land and refusing to invest in our future in renewable alternative energy sources. I will not sit idly by while big corporations propose profits by destroying the earth and forcing me to pay for it. Sincerely,

Gina K. Moesser
