Notes:

COMMENT DESCRIPTION:

I have read that the PUC is having hearings to relicense, and or refinance the two nuclear power plants on Lake Erie. As one who is downwind, albeit fairly far, I would encourage you to retire these two dangerous dinosaurs as we have done with vermont yankee. From what I have read, these plants seem like Chernobyl style accidents in waitin and while I understand the owners need and desire to maintain their capital investment, I think this is far outweighed at this point by the potential of making large swaths of ohio, pennsylvania, new york and ontario uninhabitable. The precautionary principle would seem to make this conclusion inescapable. thank you for considering my comment John
