MEMORANDUM IN SUPPORT

Pursuant to Rev. Code §4906.06(D) and Admin. Code §4906-5-09(C), Applicant American Transmission Systems, Incorporated (“ATSI”), requests that the Ohio Power Siting Board (“Board”) issue an order curing a minor delay in publication of the Public Notice for the Letter of Notification for the Eastlake-Lloyd 138 kV Transmission Line Structure Addition Project. Pursuant to the Board’s interim requirements for the filing of Letters of Notification, as established in the Second Finding and Order issued on December 17, 2012 in Case No. 12-1981-GE-BRO, Applicant was required to provide for publication of the Public Notice for the Letter of Notification in this case within 7 days of filing with the Board. The Applicant filed the Public Notice nine days after the filing the Letter of Notification with the Board. Applicant respectfully requests that the Board accept as timely and effective the publication of the Public Notice on December 17, 2014.

Applicant filed the Letter of Notification with the Board on December 8, 2014. Due to an inadvertent delay, the Public Notice was published in The Cleveland Plain Dealer on December 17, 2014, nine days after filing the application with the Board. Applicant filed Proof of Publication of the Public Notice with the Board on January 20, 2015. Because the Public Notice was published only two days late and no comments have been received on the Project, Applicant

respectfully requests that the Board issue an order confirming that publication in The Cleveland Plain Dealer for this Project was adequate to ensure sufficient, timely and effective public notice of the Project.

Respectfully submitted,
