PUCO Commissioners

Subject: No bailouts for coal

Dear PUCO Commissioners,

I do not support Ohio's electric utilities' attempt to bail out their old coal plants on my dime. These plants are not competitive with today's market prices for electricity, and they spew toxic pollution into our air and water.

Coal, which generates nearly 70 percent of electricity in Ohio, is known to cause major air pollution and negatively impact public health while contributing to climate disruption. Due to Ohio's heavy reliance on coal, we have some of the worst air in the nation.

Ohio's utilities' request to bail out coal plants that are no longer economically feasible is bad public policy that, in addition to costing Ohio electric customers more, will prevent Ohio from reducing dangerous emissions of carbon, soot, smog and mercury pollution. ON A PERSONAL NOTE, THIS ACTION YOU HAVE TAKEN WILL END MY LIFE LONG ASSOCIATION WITH CONSERVATISM. THIS IS DUMB AND NO I WON'T PAY FOR IT. THE IDIOTS THAT PASSED A LAW CHARGING A TAX ON SOLAR ENERGY IS THE ONLY OTHER MOVE I CANNOT ACCEPT. I AM ONLY ONE PERSON BUT YOUR ACTION IN THIS MATTER WILL RESULT IN MY BEST EFFORT TO END YOUR GOVERNORSHIP.

Sincerely,
Gregory Marsteller

Subject: No bailouts for coal

Dear PUCO Commissioners,

I do not support Ohio's electric utilities' attempt to bail out their old coal plants on my dime. These plants are not competitive with today's market prices for electricity, and they spew toxic pollution into our air and water.

Coal, which generates nearly 70 percent of electricity in Ohio, is known to cause major air pollution and negatively impact public health while contributing to climate disruption. Due to Ohio's heavy reliance on coal, we have some of the worst air in the nation.

Ohio's utilities' request to bail out coal plants that are no longer economically feasible is bad public policy that, in addition to costing Ohio electric customers more, will prevent Ohio from reducing dangerous emissions of carbon, soot, smog and mercury pollution.

Sincerely,
Sherry Massaro
