# Dayton Power & Light: Competitive Bid True-Up Rider

# Case No. 14-0563-EL-RDR

### **Background**

Pursuant to the September 4, 2013 Opinion and Order in Case No. 12-426-EL-SSO, et al., Dayton Power & Light ("Company") filed its application to implement the Competitive Bid True-Up Rider (CBT) on May 1, 2014. The CBT is intended to allow the Company to recover competitive bidding process (CBP) auction costs, CBP consultant fees, Commission consultant fees, audit costs, supplier default costs, and carrying costs.

# **Application**

The application includes both charges from auction suppliers and auction costs. The auction supplier charges are in the amount of \$366,213 and the auction costs amount to \$409,295. The Company also applied carrying charges of 4.943% and a gross revenue conversion factor of .0072. The gross revenue conversion factor consists of both bad debt and CAT tax. The proposed CBT rate for all kilowatt hours for the period of March 1, 2015 through May 31, 2015, is \$0.0010722 per kWh. This is an increase over the previous approved CBT rate of \$0.0001619.

### <u>Analysis</u>

Staff verified that the Company has correctly calculated the auction supplier rate (Component A) of the filing. Staff has verified that the supporting schedules for the auction supplier rate (Schedule B-1 and Work Paper B-1) included the actual supplier charges, the associated rider revenue, and was correctly grossed up for carrying charges, bad debt and CAT tax. However, Staff identified a need for an adjustment to the auction cost rate (Component B). Staff recommends a disallowance of \$97,842.12, plus the associated carrying charges, which will result in a change in the proposed rate for Component B of the overall CBT rate. A description of Staff's proposed disallowance is as follows:

### **A&G Overheads**

Staff recommends that the Commission disallow the administrative & general (A&G) Overheads that the Company allocated to this rider as an allocation of the auction consultant fees. The Company not only booked the amounts actually invoiced and paid to the Consultants, but also booked an additional percentage of each invoice as overhead costs in the amount of \$92,593.64. Staff believes A&G overhead allocations are not applicable to this rider and could result in double recovery. Typically, overhead costs are built into base rates. Staff believes there was insufficient evidence showing the A&G costs were incremental to base rates. Furthermore, this cost was not specifically authorized by the Commission, nor have other utilities charged A&G overheads in their auction cost reconciliation riders. A line-by-line breakdown of the A&G overheads by period is included in Staff Appendix A.

#### Non-Incremental Labor

Staff has concerns with regards to the inclusion of non-incremental labor. The Company included non-incremental labor in Schedule B-2 of the filing in the amount of \$4,680.53 (see Appendix A). Staff considers the associated internal labor charges to be within the realm of normal duties for a regulatory employee working at the Company. The corresponding tasks performed by the employees do not fall outside the scope nor are they in addition to an employee's normal responsibilities. Staff recommends disallowing a total of \$4,680.53 in non-incremental labor charges plus the associated carrying charges. Of the \$4,680.53 in non-incremental labor, \$386.91 is for employee bonuses that are allocated to the rider. Staff recommends that employee bonuses are inappropriate for inclusion in this rider and should be borne by shareholders, not ratepayers.

## **Travel Expenses**

Staff recommends a total disallowance of \$567.95 plus carrying charges associated with travel expenses. Staff recommends the removal of alcohol purchases. Furthermore, Staff recommends that the Company's travel accommodations and expenses fall in line with the Federal Per Diem Rates (U.S. General Services Administration) for that year, resulting in an adjustment of \$544.95 plus associated carrying charges. Staff agrees that prudently incurred hotel costs associated with the October 2013 and September 2014 auctions should be recoverable, but that the Federal Per Diem rate of \$237 per night is more than reasonable. All hotel costs booked to this rider were well above the Federal allowable rate. Staff does not believe that these costs were prudently incurred, and has recommended that the Commission disallow the portion of costs above the Federal allowable rate and associated carrying charges.

The Commission's Opinion and Order explicitly states the Company can recover auction costs, consultant fees, audit costs, supplier default costs, and carrying costs. Staff recommends the exclusion of A&G and excessive travel expense, resulting in an adjustment of \$97,842.12 plus all associated carrying charges. The adjustments and resulting changes are supported in Appendix A.

# **Recommendation**

Staff recommends that rider CBT be approved but an adjustment of \$97,842.12 should be made to Schedule B-2 resulting in a new Component B rate of \$0.0004774 and an overall CBT rate of \$0.0009837.

<sup>\*</sup>Employee B and Employee C booked the hotel and airfare in one transaction and did not provide separate pricing.

Since Employee B and Employee C stayed at the same hotel, in the same type of room, on the same night as Employee A, Staff assumed the same room rate for Employee B and Employee C.
