Attn: Case # 14-0841EL-SSO

PUCO and John Kasich:

Please stop the Duke Energy bailout. Customers should not have to have increased rates to keep outdated plants running. Our world is being broken down because we tend to take the easy way out of so many different aspects of our lives, but we can't take the easy way out when it comes to our environment. We need to look out for those coming after us and make sure they have a safe and healthy world to live in. Please take the time to think about the long term effects.

Sincerely,  
Rachael Ganslein
