**Commencement of Construction
Carroll County Energy Facility
Case Number: 14-2085-EL-BGA**

Dear Madam or Sir:

On January 12, 2015, Staff attended your initial tree clearing preconstruction conference for the above referenced project. At the conference, construction-related issues regarding tree clearing were satisfactorily addressed. In addition, Staff has reviewed the general tree clearing proposal letter you provided.

The Board certificated your amendment on March 9, 2015. Staff believes that the Board's conditions regarding tree removal for the project have been adequately addressed. Tree clearing activities related to your amendment may now commence.

Please notify the Board before construction activities start and once construction is complete.

Please also note that Staff will periodically be on-site throughout construction of this project, and will check in with your office prior to entering portions of the site.

If you have any questions regarding the above, please contact me or Jim O'Dell at 614-644-5736.

Sincerely,

Ray Strom, Chief
Power Siting, Efficiency, & Renewable Energy
Ohio Power Siting Board
