Dear sirs,

I pay my bill to FirstEnergy/Illuminating Company and I care about this issue because of our continued dependence on fossil fuel. Because you continue to buy power from Ohio's oldest, and dirtiest coal plants, there is no incentive to develop cleaner energy sources.

I, personally, have a history of asthma. I therefore have a real stake in protecting the air I breathe from pollution. And I know that our neighboring states to the east would like the fallout from our dirty coal plants to stop polluting their lakes and killing or blighting their forests.

Human greed being what it is, it will take a lot of public pressure for you to implement change. Here is my individual shove! Karen Hunter
