Westford, MA 01886

**Commencement of Construction  
Carroll County Energy Facility  
Case Number: 13-1752-EL-BGN**

Dear Madam or Sir:

On March 24, 2015, Staff attended your preconstruction conference for the above referenced project. At the conference, construction-related issues were satisfactorily addressed. In addition, Staff has reviewed all submittals that are required to date.

The Board certificated your facility on April 28, 2014 and subsequently, your amendment on March 9, 2015. Staff believes that the Board's required conditions to date for the project have been adequately addressed. Construction activities may now commence.

Please notify the Board before construction activities start and once construction is complete.

Please also note that Staff will periodically be on-site throughout construction of this project, and will check in with your office prior to entering portions of the site.

If you have any questions regarding the above, please contact me or Jim O'Dell at 614-644-5736.

Sincerely,

Ray Strom, Chief  
Power Siting, Efficiency, & Renewable Energy  
Ohio Power Siting Board  
614-466-7707
