Dear Sirs,

I am writing concerning your case number for FirstEnergy 14-1297-EL-SSO. I would not be in favor of any bailout of old, polluting technology. These old coal fired plants pollute not only in our state but also our neighboring states. I have read about acid rain in the Smoky Mountains National Park attributed to Ohio coal plants. I would hope in a state known for its innovation companies that we would do all possible to insure that our power is generated by efficient, and hopefully, some renewable energy sources.

I hope you do not saddle us with more inefficient, dirty energy.  
Thank you for your consideration.

Sincerely,

David R. Trout  
Phyllis Douglas
