RE: FirstEnergy 14-1297-EL-SSO

Dear PUCO Members:

I write to ask you to oppose a rate increase requested by FirstEnergy. Please do not force Ohioans to bail out old, dirty, inefficient energy when our state has such great promise to develop a variety of energy resources from solar to clean coal. As a thirty-year resident taxpayer of Ohio, and as the father of two boys my wife and I raised in Ohio, I have a vested interest in the health, welfare and future of this state. I do not want to subsidize a polluting utility for the benefit of shareholders and to the detriment of the state's energy potential.

Your Commission has reasonably denied Duke Energy and AEP's requests for bailouts. The FirstEnergy request should result in same outcome. It's time for Ohio leaders to recognize our state's energy potential and invest in our future.

Sincerely,

David E. Dallas

Re: First Energy Case # 14-1297-EL-SSO

Members of PUCO

Please deny First energy's bailout request for their outdated power plants. The pollution problems confronting Ohioans are well known. Leadership from a global perspective demands such bailouts for outdated facilities be denied as the status quo is no longer acceptable. The energy sectors continue to make record profits and yet whine like paupers when asked to reinvest in their own livelihoods. Make them, as all other successful businesses do, plan for their own long term needs which will, at the same time, protect the health and environment of the public they serve and profit from.

Sincerely,

A handwritten signature in black ink, appearing to read 'Matt Sherman', with a long horizontal flourish extending to the right.

Re: First Energy Bailout case # 14-1297-EL-SSO

Dear Sirs and to whom it may concern:

I am writing you to ask that you do not  
support the First Energy bailout that  
will raise consumer rates and use the  
profits to cover the costs of their outdated  
and inefficient coal plants.

We in Ohio need to find better solutions  
for energy and stop the production of coal  
that pollutes our air and water; not to  
mention the health hazards it creates.

Thank you for your consideration on  
this matter.

Sincerely,

Carol S. Hesser  
1315 Hayward Court  
Cincinnati, OH 45208

---

Dear Public Utilities Commission of Ohio,

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. This is in reference to First Energy 14-1297-EL-SSO.

Best,  
Jeff Clappole

Re: First Energy Bailout Case# H-1297-EL-550

DEAR COMMISSIONERS -

THIS IS AN IMPORTANT ISSUE FOR THE RATEPAYERS OF OHIO, AND THE GENERAL PUBLIC HEALTH. I CARE ABOUT THIS ISSUE AS DO MANY OTHER CITIZENS. THE CITIZENS YOU WERE APPOINTED TO SERVE.

FIRST ENERGY & OTHER UTILITIES SHOULD NOT BE GIVEN A RATEPAYER FUNDED BAILOUT TO CONTINUE POLLUTING AND RUNNING ANTIQUATED, INEFFICIENT POWER PLANTS. THEY ARE EFFECTIVELY ASKING FOR A CORPORATE WELFARE PROGRAM TO CONTINUE PUTTING PROFITS IN THE POCKETS OF SHAREHOLDERS. RATE-PAYERS THAT YOU SERVE SHOULD NOT BE FUNDING THIS IN ANY MANNER!! IF THEY WANT TO REMAIN PROFITABLE MAKE THEM FIND NEW INVESTMENTS IN CLEANER ENERGY, AT THE COST TO INVESTORS WHO WILL PROFIT, NOT TO THE COST OF THE GENERAL BILL PAYING PUBLIC.

PLEASE DENY THE FIRST ENERGY BAILOUTS.

THANK YOU.

Case # 14-1297-EL-SSD

April 9, 2015

Public Utilities Commission of Ohio  
180 East Broad Street  
Columbus, OH 43215

To Whom It May Concern:

As a concerned Ohio citizen, I am writing you this letter to let you know that I care about the issues of toxic pollution and the old, polluting technology that Ohio citizens will be called upon to bail out of their dilemma.

The majority of coal-fired power plants in the state of Ohio are outdated and inefficient but rather than looking to invest in efficient and renewable energy, the citizens of Ohio will be asked to continue to pour money into buying power from plants that are way beyond their prime with no plan for future efficiency.

Please work with the citizens of Ohio to deny the rate increase being asked for through PUCO – please refer to FirstEnergy Case Number 14-1297-EL-SSO.

Thank you for your attention to this matter.

Dear Commission,

My family and I are deeply concerned about preserving the environment for our future generations.

Reducing toxic pollution should be a priority of the State of Ohio and every Ohioan. Coal power as a means of supplying the bulk of our electrical power is costly to current and future pocketbooks in numerous ways.

Please use your authority to ensure that Ohio's oldest, most costly and dirtiest coal plants are denied rate increases and are replaced by renewable energy sources. We care about reducing toxic pollution as well as saving money on our electric bills. A bailout of old, polluting technology only benefits utility shareholders and their management and delays what will be an inevitable investment in efficiency and renewable energy.

Very respectfully,

A handwritten signature in black ink, appearing to read 'WC Dorlac', written in a cursive style.

Dear PUCO Representative,

I urge you to stop the FirstEnergy bailout. Duke Energy, AEP, and First Energy should not be allowed to raise consumer rates in order to use the profits to cover the costs of their outdated and inefficient coal plants. A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

It is imperative that we move beyond these outdated and polluting methods of supplying energy to our citizens. Let's move forward, not backward. Let's embrace change for the better - not hold onto methods proven to create toxic pollution.

Please deny this rate increase that will lock consumers into buying power from Ohio's oldest and dirtiest coal fired plants.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul J. Sturdevant". The signature is fluid and cursive, with a long horizontal stroke at the end.

Dear Sirs,

An important issue that has come to my attention is FirstEnergy 14-1297-EL-SSO. It seems analogous to driving a car as far as one can before beginning to sink "good money after bad" into it. The time to move out of the fossil fuel and into the renewable energy source field is now.

Take a tip from the young woman and man who came to my doorway – it is worth *their* time and energy to take that risk. Surely it's worth looking more seriously at than ever before!!

1239 Isis Ave.

Cincinnati, Oh 45208

Dear Public Utilities Commision of Ohio, case # 14-1297-EL-SSO

I am contacting you regarding the FirstEnergy Bailout. Please prohibit the rate increase to lock consumers into buying power from gross, toxic coal plants. This issue is dear to me after reviewing evidence supporting it as a poor alternative to newer, more efficient and alternative energy options. Relying on non-renewable energy sources such as coal is living in the past with no regard to the future. Money needs to be diverted into clean power development, such as wind turbines and solar energy. Furthering toxic pollution to our beautiful state is not something that comes without consequences, and my family cares about this issue, for it impacts all of us. I'm very disappointed that you would consider the prospect of a bailout. Please deny!

Very sincerely,

Ryan and Jacquelyn Keyes

Members of the Public Utilities Commission of Ohio:

We are requesting that you deny the request of Duke Energy, AEP, and First Energy To raise consumer rates

We care about the burden that increase will put on Ohio residents, whether they are homeowners or renters.

Even more, we are concerned that if they are granted permission to raise rates that money will be used to continue running outdated & inefficient coal plants. We want to see Ohio energy producers look for more efficient, renewable energy sources.

RE: FirstEnergy Bailout 14-1297-EL-SSO

Dear Public Utilities Commission of Ohio:

I am a 10 year resident of the State of Ohio, and I am writing to express my concern about the FirstEnergy Bailout 14-1297-EL-SSO. A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, and dirtiest Coal plants. My family and I care about reducing toxic pollution as well as saving money on our electric bill. I care about this issue because I am a mother and a Pediatrician concerned with the health and wellbeing of our future generations.

Sincerely,

A handwritten signature in black ink, appearing to read 'K. Bouvay', with a long, sweeping horizontal stroke extending to the right.

TO: Public Utilities Commission of Ohio  
RE: Case #: 14-1297-EL-SSO

To Whom it May Concern:

I am writing to express my strong opposition to the rate increase that would lock customers into buying power from Ohio's oldest, dirtiest coal plants.

I care deeply about this issue because I care about reducing toxic pollution for my family and the world we all share.

The American taxpayer has bailed out so many "free market" businesses and it is time to stop. The cost of doing business, and enjoying tremendous profits, is the responsibility of ensuring your business does not harm your consumers or the environment in which they live. I urge PUCO to stand with the citizens of Ohio and not with businesses who try to pawn off their ~~own~~ responsibilities.

Sincerely,

Michelle Frigault

Dear Commission Members:

My family cares about reducing toxic pollution in the air we breathe. A bailout of old, polluting technology only benefits utility shareholders and delays investment in clean energy. Please deny the bailout and the rate increase to lock us into buying power from the old and dirty coal plants.

Sincerely,

Dear Governor John Kasich,

Please deny the rate increase  
to lock consumers into buying power  
from Ohio's oldest, dirtiest coal plants.

I also care about Ohio's air quality  
for the health of all.

Thank you for your consideration  
in this matter.

Sincerely,

Patricia Burke

Dear Public Utilities Commission of Ohio,

Regarding First Energy 14-1297-EL-SSO, I encourage you to prevent First Energy, Duke, and AEP from raising consumer rates and use the profit to cover costs of their outdated coal plants.

Holding onto these coal plants simply delays the inevitable change that Ohio will need to make toward cleaner energy sources – why spend money on hanging onto old polluting coal plants, especially when you asking Ohio consumers to foot the bill?

As a primary care physician, I have seen soot reduce the quality of life for Cincinnati's children because of the problems it causes them with asthma. Please help Ohio move forward away from these old coal plants.

Thank you,

To whom it may concern,

I am writing in regards to FirstEnergy case #14-1297-EL-S. Please deny the rate increase to avoid continuing to support outdated and dirty coal power. As a citizen of Cincinnati, I hope to encourage policies that will improve air quality and invest in energy from clean, renewable sources.

Sincerely,

A handwritten signature in cursive script that reads "Gregory R. Lee".

PUCO Board Members,

Now is the time for you to step forward and help Ohio move into the 21<sup>st</sup> century by phasing out high polluting coal plants with more efficient energy producing power plants. Please do what's right for the people of Ohio.

Thank you for your consideration.

Sincerely,

Richard E. Lisak
