

Lauren Pfister

Case #: 14-0841EL-550

To: Public Utilities Commission of OHIO.

Please deny the rate increase/PPA rider & deny future considerations to lock consumers into buying power from Ohio's outdated coal plants. My family & I care about reducing the toxic pollution in OUR environment & saving money on our electric bills.

We, after all, are the consumers impacted & deserve a voice. Please consider investing efficient & renewable energy sources!

PUBLIC UTILITIES COMMISSION OF OHIO
ATTENTION CASE # 14-0841EL-SSO

PLEASE DO NOT RAISE MY
RATES. I PAY MY BILL TO DUKE
AND ALREADY FEEL THAT IT IS TOO
HIGH. MY MORTGAGE, WATER, STUDENT
LOANS, INSURANCE, GAS, CAR PAYMENT
IS HARD ENOUGH TO MANAGE ALREADY
WITHOUT INCREASED RATES. I HARDLY
MAKE ENOUGH TO SAVE. A BAILOUT
TO SAVE OUT-DATED PLANTS MAKES NO
SENSE. THEY ARE DIRTY! I DOES NOT
HELP THE STATE OR THE PEOPLE OR
THE ENVIRONMENT! IT ONLY HELPS
THE SHAREHOLDERS.

Lauren Pfister

To whom this may concern with the PUCO,

I pay my bill to Duke Energy (case # 14-084EL-550) and I care about this issue because my family and I care about reducing toxic pollution in our environment. In addition, saving money on our electric bills is paramount. Please consider the concerns of citizens regarding this bailout.

RE: PUCO Case # 14-⁰⁸⁴¹~~1297~~-EL-SSO
Energy Rate Increase

We are an electric power customer of Duke Energy. We are writing to ask you to prevail on the PUCO to deny the electric rate increase being requested by AEP, Duke Energy and First Energy. As we understand it, this increase will lock us into buying power from Ohio's oldest and least efficient coal fired power generating plants with no hope of operational, thus cost, improvement. The only apparent beneficiaries of this increase will be the shareholders of these utilities while keeping these old plants in operation and delaying investment in newer more efficient and cleaner energy production.

We are retired and on a fairly modest and fixed income and therefore care about keeping our cost for energy in check. We also care about reducing toxic pollution from these plants by upgrading with new efficient equipment, cleaner fuels, better emissions controls and where practical possible replacement with renewable power sources. We realize that these measures cost money, but holding on to the old plants with little or no improvement is not the way forward.

We appreciate your consideration of our concerns.

Sincerely,

Raymond K. Leisten

Public-Utilities Commission

I pay my bill to Duke Energy and this issue is important to me because I have children. We as a family would like to pass on a better Earth to our children and their children. The only way this can be done is if the energy companies become more efficient in the way they do business. It's time to get rid of the old coal equipment and invest in our future. Please deny the rate increase that will raise my bill for old energy.

Thank you,

Governor John Kasich
Riffe Center, 30th Floor
77 South High Street
Columbus Ohio 43215-6117

Governor John Kasich,

Please do not allow the PUCO to approve the rate increase to cover the cost of running older dirtier coal plants. It is time for Ohio to modernize its infrastructure and create an environment that will attract new businesses. This will not be done by continuously patching up older coal plants. We need to lead the way in creating clean and renewable energy streams that do not pollute our air and water. I personally do not want to pay a higher price for outdated technologies.

Take the money that would be used for the bailout of old technology and invest it in newer cleaner technologies. I live in a village that is sourcing 80% of its energy needs from renewable sources. We invest in solar and geothermal technologies and hope to eventually get 100% of our energy from renewable sources. Please support communities like ours and help encourage others as well.

Please help make our state one that is preparing for the future and leads the way in reducing pollution and pushing newer, cleaner technologies.

Thank for your consideration

Scott Stolsenberg

3-27-2015

Dear Governor Kasich:

3/29/15

I do not support the rate increase of utilities to support outdated power plants. We must find renewable resources & reduce toxic pollution.

Thank you.
