B. Usage Sensitive Charges and Allowances

Each call to a telephone number within the customer's exchange area is charged on a usage basis. Extended area usage rates apply to calls made to certain exchanges outside the customer's exchange area. Usage charges apply on customer-dialed station-to-station calls charged to the calling party. Where operator assistance is utilized, the usage charges apply in addition to the charge for operator assistance on local messages. The additional charge for operator assistance would apply if the calling party wants the call billed to another local telephone number.
