Mr. Corona,

Thank you for contacting the Ohio Power Siting Board (OPSB). Your correspondence regarding the proposed Gable Substation Project will be docketed in the public comments for case number 14-1280-EL-BSB.

The adjudicatory hearing in this case concluded on April 24, 2015, in Columbus. During the adjudicatory hearing, AEP Ohio Transmission Company and OPSB staff offered expert testimony supporting their positions before an administrative law judge. At a later date, The Board will schedule the project for a decision during a public Board meeting.

The OPSB website at www.OPSB.ohio.gov provides the latest information regarding this and other power siting cases. Should you have additional questions or comments, please feel free to contact me directly at (866) 270-6772.

Respectfully,

Matt Butler

Subject: Case# 14-1280-EL-BSB

I am writing as a concerned citizen and resident of Jefferson County Road 15 in reference to Case# 14-1280-EL-BSB and the Gable Substation. That it be moved to the alternate site.

As a life long friend of the Otto family as well as other residents in the area of the preferred site, I can only imagine the impact that a facility like this will have on their daily lives and routines in this now peaceful and beautiful area.

I am an IBEW member that could obviously benefit from the construction in my local area but would not like to see this farm and surrounding residents disturbed by this project.

Leonard A. Corona III
