Subject: RE: AT&T: gable substation case no: 14-1280-EL-BSB

Mr. Salvatori,

Thank you for contacting the Ohio Power Siting Board (OPSB). Your correspondence regarding the proposed Gable Substation Project will be docketed in the public comments for case number 14-1280-EL-BSB.

The adjudicatory hearing in this case concluded on April 24, 2015, in Columbus. During the adjudicatory hearing, AEP Ohio Transmission Company and OPSB staff offered expert testimony supporting their positions before an administrative law judge. At a later date, The Board will schedule the project for a decision during a public Board meeting.

The OPSB website at www.OPSB.ohio.gov provides the latest information regarding this and other power siting cases. Should you have additional questions or comments, please feel free to contact me directly at (866) 270-6772.

Respectfully,

Matt Butler

Hello,

My name is Paul Salvatori, II. I am a resident of Jefferson county. I am writing this email to ask you to not use the preferred site on County Road 15 for the Gable substation. I have spent many of sunsets watching deer graze in that field. This substation will be an eye sore, and would be better off away from the public's view. County Road 15 gets a lot of traffic and is a nice road for a Sunday drive. This substation could and should be placed at one of the other possible locations. Thank you for your time.

-Paul A. Salvatori, II
