Columbus Ohio 43215

To the PUCO,

I am a new Ohio citizen, and I care deeply about the environment. Particularly, I care about power plants and the way that toxic residue finds its way into our air and water. As our existing power plants age, they should be replaced with new, sustainable, clean and renewable energy sources, or nuclear plants.

In the spirit of this, I would like you to refuse to lock in rate increases to pay for our oldest and least efficient power plants. These plants are also the most polluting plants we have, and they should be phased out, not bailed out. Do not force us to pay for un-economical and polluting energy, please!

With respect,

A handwritten signature in black ink, appearing to read "JS" or "Jonathan Spaulding".
