**Re: Dominion East Ohio Matalco Inc., MLX – Pipeline Project,
OPSB Case No. 15-488-GA-BLN**

Dear Ms. McNeal:

On April 13, 2015, the Ohio Power Siting Board (“OPSB”) Staff issued a Report of Investigation approving the Letter of Notification subject to a number of conditions.

Within this set of conditions, Condition No. 1 requires Dominion East Ohio (“DEO”) to obtain and comply with all applicable permits and authorizations as required by federal and state entities for any activities where such permit or authorization is required. In compliance with Condition No. 1, attached for filing is an e-mail dated May 7, 2015 from Mr. Nathan Reardon, Compliance Coordinator, ODNR - Division of Wildlife (“DOW”) stating that DOW will waive the in-water work restrictions for the requested period of June 1 through June 30, 2015.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield

Matt,

The DOW has reviewed this request, and the project is eligible for a partial in-water work restriction waiver. Therefore, the DOW does not object to waiving the in-water work restrictions for the requested period of June 1 through June 30, 2015. This is a onetime waiver, and waivers for subsequent years will need to be applied for separately. Please let me know if you have any questions.

Thank you,
Nathan

Nathan,

The Corps of Engineers has issued a NWP 12 for the referenced project and the applicant has requested a In-Water Waiver Request. The project involves the installation of a new gas line to the Matalco Aluminum remelt plant and requires a crossing of Little Duck Creek adjacent to Tait Road. Please review the attached materials and let me know if you need any additional information.
