To Whom It May Concern,

This letter is in reference to FirstEnergy case number 14-1297-EL-SSO. I care about saving money on electric bills and reducing toxic pollution by eliminating inefficiency in coal plants. Please deny the rate increase to lock consumers into buying power from Ohio's outdated plants. A bailout of outdated technology will only benefit shareholders, and this will delay investment into renewable energy for the future.

Thank You,

Mark Khudyak
