RE: FirstEnergy 14-1297-EL-SSO

Dear Governor and PUCO:

I write to express my strong conviction as an Ohio citizen. I request that you deny the rate increase in the above-mentioned case. We care deeply about reducing toxic pollution, as well as reducing electric bills.

A bailout of old, polluting technology does not benefit Ohio citizens. Instead it caters to utility shareholders, and prevents what really needs to be done – investment in efficient and renewable energy.

Thank you for your sensitivity and common sense in this matter, and for caring for the environment and the citizens of Ohio, which you are called to serve.

Sincerely,

Kathleen Wade
