To Whom It May Concern,

I am respectfully requesting that you deny First Energy's bailout. (Case #:14-1297-EL-SSO).

I care, my family cares, I'm sure everyone cares not to have rates raised. No one wants toxic pollution. I do believe what people want is for companies to be accountable. We want companies to care about our environment and to not be so greedy that they lose sight of what is needed now and for our future generations.

How can our youth respect us if we show them that they don't matter and that our environment doesn't matter and that accountability doesn't matter.

We want our beautiful state to be respected and cared for and to leave things better for future generations.

Thanking you in advance for your consideration.

Sincerely,

Carol Penzer Dunn
