Columbus, Ohio 43215

14-1297-EL-SSD

Dear Sir/Madam,

As a loyal Ohio citizen of 33 years, I am ~~very~~ very concerned about the air quality in our State. I understand we are one of the leading states of poor air quality which I am sure neither you or I are not proud of this attribute.

I oppose buying power from Ohio's oldest, dirtiest coal plants. I care about reducing toxic pollution and saving money on my electric bill.

A bail out of old, polluting technology only benefits utility shareholders and delay inevitable investment in efficiency and renewable energy. I am against the bailout and want our state to improve our air quality. Thank you for your attention in this matter.

Sincerely,

Janae Brown
