To whom it may concern; PUCO

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. My husband & I care about reducing toxic pollution, but also about saving money on our electric bills. We also care about air quality because of the impact on a person's health.

Bailing out old, polluting technology only temporarily benefits utility shareholders, but not Ohio's stakeholders. A bail out only delays inevitable investment in renewable energy.

Case # for First Energy 14-1297-EL-SSO

Thank you for your attention & consideration.

Sincerely,

Eva Borho
