Re: Energy Bailout

case # 14-1297-EL-550

To whom it may concern,

As a citizen of Ohio and a parent and a occupant of this planet, I strongly advise against a bailout of energy entities that only have themselves in mind. They have mismanaged and misused their resources and the result is dirty air and land with no consideration for the future, theirs or any one else's. A bailout not only saves poorly run, environmentally irresponsible and inevitably extinct companies, but it locks citizens into a relationship with them for many years to come. Please advise those involved in this process to simply do the right thing. Rarely is that as black and white as it fortunately is with this issue. Deny a rate increase for old and dirty energy and prohibit a bailout that does nothing to benefit citizens as well as seriously delays the inevitable investment in cleaner energy sources.

Thank you,

Ryan Sterling
