## MEMORANDUM IN SUPPORT

Infinity Power Partners, LLC (“Infinity”), is an energy management and consulting firm whose mission is to provide procurement and risk management services, on-going market insight, and continuous account maintenance through the development of client-specific strategies. Infinity is already a certified Competitive Retail Electronic Supplier under certification case no. 13-1437-EL-AGG. Infinity was required to file its application to renew its certificate thirty days prior to July 20, 2015. No material changes have occurred to Infinity. Due to an internal oversight, it missed the deadline. McDonald Hopkins LLC was retained shortly after the July 20, 2015 to assist Infinity in rectifying the oversight.

Rule 4901:1-24-09 O.A.C. requires renewal applications to be filed no less than 30 and no more than 60 days prior to the certificate expiration date. Infinity’s certificate expired on July 20, 2015. Therefore, Infinity will file a new application. In order to facilitate this filing, and to insure that Infinity will be able to service its customers in Ohio during the pendency of the application, Infinity respectfully requests: (i) a 30 day extension of its current certificate; and (ii) authority to operate during the pendency of the new certification application.

Respectfully submitted,

---
