RE: First Energy case #: 14-1297-EL-SSO

I am writing to ask you to please DENY the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. My family and I care about reducing toxic pollution and saving money on our electric bills. The bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

I am a lifelong citizen of the State of Ohio, and vote in every election. I frequently speak to friends and ~~family members about the issues and about the candidates running for elected office.~~

Sincerely,

A handwritten signature in black ink, appearing to read 'Cynthia F. Bujakowski', with a stylized flourish at the end.

Dear Sir or Madam,

I am writing to you to ask that you please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. I would prefer to spend personal money & tax revenues on investments on cleaner, more efficient, renewable power sources.

I care deeply about this issue because I hopefully still have several decades on this planet, and I would like to see improvements in energy sources and air and water quality.

Thank you in advance for doing the right thing and investing in our future health!

14-1297-EL-880

Regarding: Case Number 14-1297-EL-SSO

Dear PUCO,

I am writing because this issue is so very important to me. Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest, coal plants.

I write because my family and I care about reducing toxic pollution and saving money on our electric bills.

A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

Again,

Thank you, please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest, coal plants.

Thank you in advance,

A handwritten signature in black ink, appearing to read "Diane M. McTier", written in a cursive style.

RE: FIRST Energy CASE # 14-1297-EL-SSO

My family and I care about reducing toxic pollution. We have the oldest and dirtiest coal plants. You must deny the rate increase locking consumers into buying "contaminated" power. We need to put our monies toward investing in efficient and renewable energy.

Thank you for your consideration,
Julie Smith

Public Utilities Commission of Ohio

180 East Broad St.

Columbus, Ohio 43215

Dear Sirs,

I am writing today in hopes to influence you towards the more progressive renewable energy application efforts in our State and not a bailout of the fossil fuel companies. I believe the renewable energy opportunities, particularly solar collection applications, have far broader, positive effects on our State and future economic growth than reliance on coal-based utilities. 14-1297-EL-SSO is not progress, but stagnant support of status quo.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul A. McDonald". The signature is fluid and cursive, with the first name "Paul" and last name "McDonald" clearly distinguishable.

First Energy 14-1297-EL-SSO

I am first and for most a resident of Ohio and live in Cuyahoga County. I drive by old factories on my way to work in downtown Cleveland. I do not support a rate increase from First Energy just so they are able to fix outdated and toxic buildings. I do care about saving money on my electric bills if this money was used to erect new energy efficient and environmentally friendly plants then yes. BUT it is not being used for that. I should not have to pay for someone else's mistake. I care about this issue because I enjoy the outdoors very much. I take advantage of the metro park system and the bike and bridle paths. I spend as much time outdoors as I can.

Thank you concerned citizen of Ohio

Dear Governor, + PUCO

It saddens me that we are again going to get hit with higher utility bills, and not have any say so in it. This is the problem. If you are for helping Ohioans as you tell us all the time, why not help us and put it to a vote.

It would give you some more credibility and we could hold you to your good word. I know you are a good man and you work hard for us, but my mother and I are on a fixed income. So let me ask you where will we get the funding for the increase. You I'm sure are well aware of the negative consequences of not paying your bills.

Please do not bail them out.

Sincerely,

July 22, 2015

Dear PUCO Members,

I am writing to you this evening regarding case number 14-1297-EL-SSO, and respectfully ask that you deny the rate increase for Ohio consumers, as requested by Duke Energy, AEP, and First Energy. It is appalling to me that Ohio residents might be footing the bill for energy plants that are outdated, pollution causing, and non-profitable.

We should be spending our time and investments in the creation and use of clean, efficient and renewable resources. The goal for the future of Ohio and the rest of the country should be to protect our environment from the hazardous pollutants caused by these outdated facilities and support new cost efficient and earth-friendly methods of energy production.

The residents of Ohio deserve your cautious and thoughtful response to this disturbing and impudent request.

Respectfully,

Susan Asadorian

July 13, 2015

Dear Sirs:

I am writing as a concerned senior citizen in regards to First Energy case 14-1297-EL-SSD. I don't want you to allow First Energy to increase my rates and continue to pollute the air we breathe with their filthy coal burning plants. Why haven't they used past profits to work on cleaning up their mess?

As a nurse, I am concerned about the health ramifications for all of us breathing in their filth.

Enough is enough; my income stays the same and prices of everything go up. Where and when will it end? Let the investors put out for what needs to be done not the consumer. Please don't give First Energy the bailout they desire.

Sincerely,
Laura M. Baylon

Columbus, OH 43215

Dear Public Utilities Commission,

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants.

My family and I care about reducing toxic pollution and saving money on our electric bills.

Case Number 14-2397-EL-SSO

Sincerely,

A handwritten signature in black ink that reads "Laura Watson". The signature is written in a cursive, flowing style.

Reference Case :
First Energy 14-1297-EL-SSO

Dear Governor Kasich,
Please deny the rate increase to lock consumers into buying power from
Ohio's oldest, dirtiest and antiquated coal plants.
It is not right that that the upgrades and replacement of these power
generation facilities should be laid on the backs of the citizens of our state.
This means a great deal to our family.

Thank You,
Susan Ballard

FirstEnergy: 14-1297-EL-SSO

Please deny FirstEnergy's bailout request. We need to put an end to coal plant pollution.

We are what we eat, drink & breathe. Coal plants pollute our environment & impact every living being.

It's time to invest in renewable and efficient energy options. We should not have to pay a rate increase and be locked into buying from Ohio's oldest, dirtiest coal plants. A bailout would only benefit the FirstEnergy's shareholders. It would delay much needed investment in efficient and renewable energy.

Thank you,

A handwritten signature in cursive script that reads "Lisa Gilles".

Re: First Energy Case #: 14-1297-EL-SSO

PUCO
180 East Broad St.
Columbus, OH 43215

Dear PUCO Members:

Please stop First Energy from keeping its old inefficient coal plants open, and from having Ohio citizens pay for it through forced rate increases. These plants need to be closed down to stop their pollution from poisoning Ohio and the whole country.

I urge you to stress renewable energy alternatives in place of the coal plants. We must severely reduce the air and water pollution in this country as well as heavily reduce chemical poisons that are choking our country all in the name of corporate profits.

Please do what is right for your citizens in Ohio and urge the same all across the country.

Sincerely,

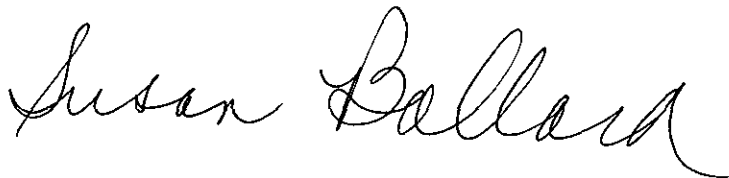

Michael E. DiMartino

Stow, OH 44224

July 15, 2015

Members of the Public Utilities Commission of Ohio:

I applaud your denial of Duke Energy's request for a bailout and support a denial of FirstEnergy's bailout as well (14-1297-EL-SSO). I am not willing to pay for the updating of coal plants as I have already paid for the energy they produce. I do not support a rate increase to cover these costs. Big energy must find a way to make their own updates, but not by moving those costs to consumers.

RE: FirstEnergy case #14-1297-EL-SSO

Dear PUCO,

I am writing due to my concerns with the FirstEnergy Case #14-1297-EL-SSO. Please deny the rate increase to lock customers into buying power from Ohio's oldest, dirtiest coal plants. As a hard working consumer, I can't afford a rate increase from FirstEnergy. My family and I care about reducing toxic pollution and saving money on our electric bills. I care about this issue for the future of my children and their children. A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy. Your ability to listen to the people that put you in office is of the utmost importance. Please listen to our concerns on this issue.

Sincerely,
Linda Roberts

To Public Utilities Commission of Ohio

I just received a bill from the Illuminating Company For my June usage of \$195.00. My normal bill is usually between \$80.00 and \$100.00. This was very hard to shallow since my wife and I are on a fixed budget. When I called to inquire about the huge increase, I was told that the rates have increased. Those rates are controlled by huge, inefficient coal burning plants. Not only are they inefficient but they are a health menace. There must be a better way to produce electric energy. I'll finish this missive with a smoke induced cough from one of those factories.

Columbus, Ohio 43215

I am writing to ask you to
stop the bailout of First Energy

These type of Bailouts only benefit
the wealthy companies - They need
to be investing in renewable energy
and putting profits into that effort
just like all other business men
do do. I should not have to pay
for the costs from first energy to
upgrades

Please deny the rate increase.

Case # 14-1297-GL-5588

10 July 2015

Public Utilities Commission of Ohio
180 East Broad Street
columbus, Ohio 43215

Dear PUCO members

As a physician at MetroHealth Medical Center, I have long been concerned about the quality of the air in northeast Ohio and the pulmonary, and lead related mental effects.

While I am delighted that PUCO denied Duke Energy modest control request for relief from coal energy (my son taught at Duke University) First Energy is repeatedly telephoning me to lock-in my subscription to their service - which I find most annoying. I believe that First Energy is the oldest, dirtiest power company remaining supplying electricity to Ohio/

Please deny their request for a rate increase!

Stow, Ohio 44224

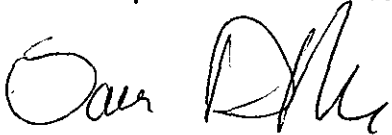

Governor John Kasich
Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215

Dear Governor Kasich,

Please deny the proposals submitted by FirstEnergy, Duke and AEP to increase consumer rates. This effectively amounts to another bailout of big businesses with outdated practices and failing business models.

Here in Ohio, we need to focus on the research and development of clean, renewables energy options--not proping up old, polluting technology.

Please help Ohio look to the future,

Sara DeNunzio

Case #17-297-EC-SSD

14-12047-EL-880

To whom it may concern,

Please deny any rate increase to lock consumers into buying power from old inefficient coal plants. Not only am I concerned with our childrens well being and exposure to toxic air. I feel the shift towards clean efficient plants would create jobs and make for a more competitive market for companies to profit in other ways that protect our health and boost the local economy.

Sincerely,

Matthew Benedict
