Subject: Reject FirstEnergy's proposal to keep old coal plants running

Aug 2, 2015

Commissioner Beth Trombold

Dear Commissioner Trombold,

I urge you to reject First Energy's proposal to keep several old, dirty and uncompetitive power plants open. Their plan will not only burden customers with increased electric bills, but the plan is anti-competitive and will harm human health. Ratepayers should not have to pay for these old power plants just because these plants cannot compete with newer technologies like wind or solar power.

These coal power plants are pumping out thousands of tons of soot, carbon and mercury pollution every day, harming me and many other Ohioans in the process. Newer technologies like wind and solar do not cause the kind of damage these old power plants will.

Please do not approve FirstEnergy's plan to bail out First Energy's old, dirty power plants. Supporting FirstEnergy's plan will hurt Ohio in its path to build an energy future powered by clean energy.
