Case No 14-1297-EL-SSO

Coal fired power plants are obsolete technology that need to be shut-down. Any citizen support for this industry will increase the cost of Electricity, increase the pollution in the Air we breathe, increase the pollution in Ground-water from both the Mining of the coal and the disposal of Coal-Ash after it is burned. The only up-side to the proposed bail-out is to the coal companies Profit. Anyone who supports this bail-out is clearly on the "TAKE" from the coal Lobbyists, and will be identified as such come Election Time.
