Re: In the matter of the authorization of CSX Transportation to install an active grade crossing warning device in Milton Township, Wood County
Date: September 8, 2015

The Ohio Rail Development Commission (ORDC) has authorized funding for CSX Transportation (CSX) to install mast-mounted flashing lights and roadway gates at Wood County, Milton Township, Weston Rd/TR 42, DOT# 155778F, approved cost \$217,154.00. This crossing was surveyed April 17, 2015 due to its hazard ranking, and was found to warrant the upgrade.

The project will be paid for with federal funds, and is actual cost. The plan and estimate for this project has already been approved in the amount noted above. Staff requests a Finding & Order with completion of the project within 9 months and that the following language be incorporated in the Finding & Order:

It is expected that all work necessary for FHWA acceptance of the warning devices will be completed by the in-service due date and that the railroad will be responsible for this work. This work includes, but is not limited to:

Any ancillary work to make the warning devices function as designed and visible to the roadway user, and

MUTCD compliance, including minor roadway work if necessary.

A suggested case coding and heading would be:

PUCO Case No. 15- 1572 -RR-FED: In the matter of the authorization of CSX Transportation to install an active grade crossing warning device in Milton Township, Wood County

The Public Utilities Commission of Ohio (PUCO) established a Diagnostic Review Team Survey at the subject highway/railroad crossing location on 4/17/2015. The Ohio Rail Development Commission (ORDC) attended the Diagnostic Survey. The Diagnostic Review Team recommended the improvement of warning devices to flashing lights and roadway gates. Copies of the Diagnostic Review Team Survey form and the railroad plan and estimate are attached.

The PE has already been provided by the railroad. ORDC approved the site plans and estimates as provided. Please issue a construction-only order for the project outlined above. This authorization is made with the stipulation and understanding that an approved estimate may contain entries for items or activities that may be cited and found to be ineligible for federal participation during the project audit.

It is expected that all work necessary for FHWA acceptance of the warning devices will be completed by the in-service due date and that the railroad will be responsible for this work. This work includes, but is not limited to:
