Re: NTE Ohio, LLC, OPSB Case No. 14-534-EL-BGN

Dear Ms. McNeal:

The November 24, 2014, Opinion, Order, and Certificate ("Certificate") approving NTE Ohio, LLC ("NTE") Certificate of Environmental Compatibility and Public Need to Construct the Middletown Energy Center established a set of conditions as part of the Certificate.

Within this set of conditions, Condition No. 6 requires that:

The Applicant shall coordinate with fire, safety, and emergency personnel during all stages of the project. At least 30 days before the preconstruction conference, the Applicant shall submit an emergency response plan to be used during construction for Staff's review to ensure compliance with this condition. This plan should be developed in consultation with the fire department(s) having jurisdiction over the area.

In compliance with Condition No. 6, we have filed two letters. The first letter was filed on August 21, 2015 submitting the emergency response plan. In filing the plan, we neglected to state that the plan was prepared in coordination with fire, safety, and emergency personnel.

The second letter filed on September 1, 2015, addressed the implementation of the emergency response plan in coordination with fire, safety, and emergency personnel. Based upon this clarification, we believe NTE has complied with Certificate Condition No. 6.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
