Dear Public Utilities Commission of Ohio,

Hi I am Eden Waters-Carpenter and my family and I would like you to know that we care about the reducing of toxic pollution and on saving money on our electric bills. Also we would like you to deny the rate increase to lock consumers into buying power from our oldest, and yuckiest coal plants. I would also like to say that a bailout of old, polluting technology only helps utility shareholders and delays inevitable investment in efficiency and renewable energy. Please consider the short overall of a huge problem and listen to what I and many other people of Ohio are saying!

Sincerely,

Eden Waters-Carpenter
