COMMENT DESCRIPTION:

Re PUCO case # 14-1297-EL-SSO Please deny this request from FirstEnergy that would pass the costs of their outdated power plants on to consumers. They should run their business like a business and do what they need to stay profitable without getting bailouts like this. We should be moving to renewable sources yesterday, not paying higher rates in order to delay renewables. And thank you for denying similar requests from Duke and AEP.
