

Gov. Kasich

This letter is to voice my concern about the upcoming bailout of Duke Energy and the coal plants. Here is my opinion and requested action on behalf of your constituents.

1. Please deny the rate increase to lock consumers into buying power from Ohio's worst coal plants.
2. My family and I care about reducing toxic pollution and saving money on our electric utility bill.
3. A bailout of old polluting technology only benefits utility shareholders and delays inevitable investment in newer and cleaner technology.

Case Number 14-1297-EL-SSO

Thank you for your attention to this matter.

Sincerely

Dan McNulty

Dear PUCO members,

It is your duty provide we citizens with an affordable energy supply, but it must come with a thoughtful consideration of a livable environment. The change from coal to a less polluting fuel is necessary to prevent further erosion of our deteriorating weather which certainly provoked by environmental pollution.

Sincerely

Bill Scott
