Re: The Dayton Power and Light Company Case No. 13-2120-EL-UNC

Docketing Division:

The Dayton Power and Light Company herewith submits proposed Tariffs for implementing its blending of generation rates as a result of the Competitive Bidding Process (CBP) auction for the time period January 1, 2016 to May 31, 2017. In accordance with the Commission's Second Entry on Rehearing dated March 19, 2014 in Case No. 12-426-EL-SSO, the time period of January 1, 2016 to May 31, 2017 shall be at 100% CBP rates. The final Tariffs will be docketed in this case and in DP&L's TRF docket before the effective date of January 1, 2016.

Base generation tariffs for each tariff class (G10-G18), Transmission Cost Recovery Rider – Bypassable (T9), PJM RPM Rider (G27), and the FUEL Rider (G28) will remain in place with rates set at \$0.00 in order to preserve tariff components such as "Required Services", "Additional Riders", "Default Service", and "Rules and Regulations", as well as allow for future true-up as needed.

Changes to the Secondary and Primary Distribution Tariffs (D19 and D20), the Service Stability Rider (G29), and the Transmission Cost Recovery Rider-Nonbypassable (T8) are a result of new maximum charge rates.

Please contact me at (937) 259-7181 if you have any questions. Thank you very much for your assistance.

Sincerely,

Eric Brown

The billing demand shall be the greatest thirty (30) minute integrated demand ascertained in kilowatts by instruments suitable for the purpose. Such billing demand shall be the greatest of the following:

- 1. Off-peak: Seventy-five percent (75%) of the greatest such demand occurring during the billing month, either within the period between 8:00 p.m. of one day and 8:00 a.m. the following day, or on any Saturday or Sunday, or on the following observed legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day or Christmas Day; or

DETERMINATION OF KILOWATT BILLING DEMAND:

The billing demand shall be the greatest thirty (30) minute integrated demand ascertained in kilowatts by instruments suitable for the purpose. Such billing demand shall be the greatest of the following:

- 1. Off-peak: Seventy-five percent (75%) of the greatest such demand occurring during the billing month, either within the period between 8:00 p.m. of one day and 8:00 a.m. the following day, or on any Saturday or Sunday, or on the following observed legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day or Christmas Day; or

The Maximum Charge provisions of this Tariff Sheet shall not be applicable to these Customers.

UNMETERED SERVICE PROVISION:

Unmetered single-phase service is available under this provision upon mutual agreement between the Company and the Customer for lighting and/or incidental power purposes for rated loads less than five (5) kilowatts having uniformity of consumption which can be predicted accurately.
