Subject: Opposition comment for case 14-1693

Please include me among the consumers who are opposed to a government sanctioned bailout of AEP's less-efficient plants. I am an AEP consumer.

There are always winners and losers when capitalism is allowed to work.

In our case, Ohio's consumers have only recently seen their utility expenses reduced as a result of the efforts to open up the electric market. Now AEP is attempting an end run to gain a preferential status that would guarantee income for plants that are no longer economically viable. Please help put a stop to this nonsense.
