COMMENT DESCRIPTION:

It is with some distress that I read of the current wrangling over the First Energy rate case before the PUCO. Your own website indicates that any information on this contact form is public, yet you have had meetings with First Energy and their opposition parties BEHIND CLOSED DOORS, while requiring (if I read the newspapers correctly), those opposition parties to sign non-disclosure agreements regarding the contents of those meetings. Where is the transparency? You are a PUBLIC utilities commission, and as such any negotiations should be completely and absolutely available to the citizens who you are purported to represent. Please put an end to the incessant short sighted rate games played by First Energy, and their arcane, inane, and Machiavellian machinations to confound the consumer!

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
