

In the Matter of the Commission's :
Review of Chapter 4901:1-10 of the Ohio : Case No. 12-2050-EL-ORD
Administrative Code. :
:
:

One Energy Enterprises LLC (One Energy), based in Findlay, Ohio, is responsible for 9 megawatts (MWs) of operating net metering wind projects in Ohio with an additional 9 MWs under construction in Ohio. One Energy is responsible for developing more net metering wind projects in Ohio than all other entities combined. One Energy's projects range from 1.5 MWs to 4.5 MWs and its customers include Cooper Farms, Haviland Plastics, Whirlpool Corporation, Ball Corporation, and Marathon Petroleum. Net metering is important to us and important to our customers.

By entry dated November 18, 2015, the attorney examiner in this case found that interested parties must file initial comments regarding the Public Utilities Commission of Ohio's (Commission) proposed net metering rules by December 18, 2015.

At this time, One Energy does not have initial comments that it would like to make. However, given the importance of this issue to One Energy and its customers, One Energy respectfully reserves its ability to file reply comments in this case.

Respectfully submitted,

/s/ Katie L. Johnson
