RECEIVED-DOCKETING DIV  
2015 DEC 24 PM 2:15

PUCO

Public Utilities Commission of Ohio

REGARDING CASE # 14-1297-EL-SSO

# 14-1693-EL-SSO

■ Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants

■ Please oppose an "indefinite freeze" of our clean energy standards

■ A bailout of old, polluting technology only benefits utility shareholders and delays investment in efficiency and renewable energy

■ My family and I care about reducing toxic pollution and saving money on our electric bills

■ Reducing our dependence on coal for electricity reduces mercury and other contamination from polluting drinking water from Lake Erie and the Ohio River

■ Limiting pollution to our air and water leads to fewer deaths and sicknesses for everyone, inside and outside Ohio

I share with all OHIOANS the Need to Remove the TOXIC By PRODUCTS of COAL FIRED FURNACES Immediately!

James G. Heinrich

Just a note...

Public Utilities  
Commission -

We should limit coal  
energy and increase solar  
and wind energy sources.
