## Stop the bailout and support clean energy

First Energy, American Electric Power and Duke Energy have submitted plans to the Public Utilities Commission of Ohio (PUCO) for financial bailouts of some of their most outdated and expensive coal plants.

They want to force us to buy the power from these old expensive plants for the next 15 years. This plan is a subsidy that flies in the face of the state policy to promote competition. Their proposal protects the utilities from risk, while placing all of the risk on the ratepayer.

The Ohio legislature passed a two year "freeze" on Ohio's renewable energy standards, which have saved customers $\$ 1.03$ billion in just the first five years. First Energy and Duke say they need time to "study" the issue, but in reality they just want to kill the program. We demand our legislators end the freeze and help us keep saving money.

I support Ohio Citizen Action's clean air campaign to --

- Stop the financial bailout of Ohio's outdated, least efficient coal plants, which would be funded by customers
- Demand to end the freeze on Ohio's renewable energy and energy efficiency standards for utilities, which have saved Ohio businesses and consumers $\$ 1.03$ billion since 2009
