DESCRIPTION

Description of the Problem:

Attorney General DeWine,

Please do not allow this to happen. First Energy is more concerned with their stock price (and executive compensation) than jobs and manufacturing in the state of Ohio. Their supposed justification is that the price of natural gas will go up after 3 years which under almost any scenario is difficult to believe. Let the free market determine the rates, not an artificial floor which will protect the shareholders of these poorly run companies. It is time to eliminate all coal fired plants in this country and certainly our state. The alternatives are far superior and create much less pollution. Thank you.
