Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Margaret McLendon

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Richard Burger

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Why should consumers have to pay for maintaining the shoddy business plan these power companies created. Our bills continue to go up and up with fees and claims that they need monies for upgrades to existing lines and apparently they never put said fee monies (that PUCO oks) back into their services for the consumers. I cannot understand why they haven't put any of the added fees toward what they claimed to be using them for. If I don't maintain my home by setting aside a little money to fix and upgrade the inevitable repairs needed who do I threaten? What a sanctioned racket these companies have going on. Funny thing is, I wrote to PUCO about this very thing back on 3/25/2014 and received a response from AEP that to me seemed more like a haha letter, my favorite part was "the charges and riders have all been reviewed and approved by the PUCO and they are items that ALL customers are subject to". I guess consumers around here are starting to smell what I smell.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Arrow Manring

Dear Commissioner Johnson,

I thought GOP abhorred having government pick winners and losers. The free market is the best way to assure a reliable power supply, especially when reviewed by independent experts who know the grid.

As far as keeping jobs, responsible plant decommissioning will keep folks working for another decade or two. If I have to pay for anything at all about these plants, it's "one and done" forever as far as I'm concerned;

Shut them down if they can't compete, like a pro GOP'er would.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

George Brnich

Inflation already is destroying the middle class enough with no attempts to raise wages to match the cost of living. I'm tired of working hard to keep struggling to make ends meet while the rich get richer. Let's stop the 1 percent from killing the middle class. Stop these deals now! This is a monopoly!

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Commissioner Johnson,

I am sickened by this ploy of AEP & First Energy to reach into my pocket to cover their lack of foresight and technological awareness.

I am equally sickened by the PUCO going behind the backs of consumers to allow this money grab by AEP & First Energy.

If AEP & First Energy cannot compete with the newer power generation plants they have only themselves to blame.

STOP THIS CONSUMER RIFOFF, NOW!!!!

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jerry Gibson

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

I worked for AEP for over 30 years and know how much they work the system for looking good to the public with several methods but they are totally profit driven at their customers expense! With my last elec bill there were several rebate offers for trading in older elec appliances. Who is really paying for this? THIR CUSTOMERS!!!

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Donald Jackson

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

They must be responsible for their mistakes. Their lack of planning is not on the customers. It is on their higher ups. They should be responsible for paying and if they can't then they should be replaced or the company itself should go under be replaced by one that will act responsibly. Or maybe they should be owned by the public if they want our money so bad.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Janice Wohl

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Gary Colburn

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

The following statement is from a newspaper article dated Dec. 2 2015.

The company says consumers will see an initial increase in electricity bills of a few dollars per month, followed by a net savings in bills in the later years of the agreement, leading to a net decrease of \$560 million over the eight-year term. Opponents say these numbers are incorrect and that there are no financial benefits for consumers.

“This is one of the worst backroom deals in the history of utility regulation,” Rob Kelter, an attorney for the Environmental Law and Policy Center, said in an email. “The PUCO staff has cut a deal with FirstEnergy that will prop up uneconomic coal and nuclear plants that can’t compete in the competitive market, the very market that FirstEnergy itself touted when competition benefitted the company.”

He said provisions that seem good for consumers or for the environment are illusory. “The agreement has so many loopholes that FirstEnergy can conduct business as usual and claim they have complied,” he said.

Looks like we the consumer will pay more now and benefit very little from it.

Sincerely,

John Geiser

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Tim Cline

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mary Evans

Furthermore, companies always talk about how wonderful competition and a free market economy are. If they wisely prepared for the future, they would be opposed to their competition asking for this handout. Let them stand or fall on their own.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

David Gierman

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. It's about time that the "suits" of the world stop making demands and start listening to the customer.

It's outrageous that my electric bill HAS gone up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders- which used to be optional -. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I just received my January statement - it is \$169.95. THIS IS HIGHWAY ROBBERY.. My house - which I have lived in for 16 years - is an all electric home with a pond and running filter. Even during the Christmas Season with additional holiday lights I HAVE NEVER USED \$169.95 WORTH OF ELECTRICITY. 2013 First Energy installed a new meter on my home to make it more accurate in my charges. I have had more "estimates" than "actual" readings since then. They s'pposedly can read my meter from the road so WHY are there still "estimates". I believe it is time to make the customer happy rather than the shareholder. Please put an end to this robbery and bring my bill back to a reasonable amount.

Sincerely,

Cheryl A Rosenberger

Dear Commissioner Johnson,

Can you imagine my surprise when I saw the recent advertisements regarding First energies conflict with consumers? they are airing on local TV.

Recently I was approached by a representative of a fairly well known energy supplier in Dec 2016, They were informing customers of their choices, specifically choices in Gas suppliers. I decided to choose the more competitive rate offered for their Gas. I also wanted some information on electric supply. Their costs were competitive as well. I am not just interested in competitive prices, I wanted to make a more environmentally responsible choice. I have had no real problems with First energy, I was still on the fence about the switch. When I was told of a plan that would cost slightly more for my electricity but would support "greener" and more sustainable sources I decided that due to the offset from cheaper gas prices offered by this company I would switch both Gas and electric. In Feb, my final bill from First energy came and I payed it off early. I was not under any false understanding up to this time regarding my electric bills. I just let auto deduct take care of payments for a long time. I wanted to clear my credit card history from First energy, Maybe i'm just a stickler for such things. When I contacted the provided number for First energy, calculated my way through their phone maze, finally a representative talked to me and said that the number was an Illuminating Co. number. I was confused, (Here in NE Ohio that is a distributor) Beyond that he was rude saying " that is all you need to know" instead of answering questions.

OK, so I understand that My credit information is on file..maybe with the Illuminating co, and have no problem with the distribution charge (This is in addition to actual energy costs) But who is First energy?

#1 So Illuminating Co. bills itself as "A First energy Co"
(isn't this a way to monopolize if not confuse people?)

#2 Doesn't deregulation prevent #1

#3 how can a supplier own a distributor while maintaining a competitive market?

Really I don't want to know. and as far as I know my credit information is still on file with First energy.

Here in NE Ohio things like the Browns First energy stadium stink.
How can that be afforded ant they are asking for additional payouts?

The reversal of decisions to put windmills in the lake, The recuperation of decades old dirty coal plants, Corporate doublespeak, Shady marketing

What had been reinforcing my confusion, now just made me angry.
FIGHT THE HIKE!

Yes I am against a price hike.
Against whatever First energy is.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Tom Burless CPA

Dear Commissioner Johnson,

The whole plan as proposed by AEP and First Energy is outrageous. No business should be subsidized by taxpayers for being inefficient. Given the resources that we have in Ohio, the price we pay for electricity is already thievery. Make them man up and be responsible.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mark Stewart

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Linda Christy

Dear Commissioner Johnson,

NO!!!!NO!!!!NO!!!! Can you read this Ohio PUCO!!!! Even your former Chairman, Todd Snitchler, is against this!! DO NOT APPROVE THIS...not now, not ever, not in any form or percentage. This will cause the people in the state of Ohio to rise up and demand you be replaced with a more consumer concerned group. Stealing from the consumers in Ohio where energy is concerned is a dirty little Republican secret that will be exposed for what it is...a money grab for utilities. You've allowed these types of thefts before and Ohio is just weary. Do not allow this and do not bring this again in 6 months in another form!

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I have been over paying for their convenience for over 40 years and have had enough. Toledo Edison has had their way forever and I will not augment their screw-ups any longer. What have they done with the BILLIONS they have already collected? I have to plan and live on a tight budget to survive on social security. I can't have my bought and paid for lobbyist go out and get me additional funding and I'm tired of the PUCO being a rubber stamp for Toledo Edison, First energy, or whomever getting more taxpayer funding because they don't live within their means...

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Janice Nelson

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I know first hand of the pays, raises, waste, and bonuses to employees and top executives. Those few of us middle class workers who are trying to make a living are being squeezed of every dollar we earn. Utilities go up and our wages stay the same. When all wage earners are retired and the new generation of welfare are all you have to gouge what are you going to do?

If I make a poor business decision, I must accept and live with it. I can't pass it on and add it to someone's electric bill The Utilities should be held to the same standard.

Sincerely,

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michael R Scott

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

gerald laughlin

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Thomas Moenich

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Furthermore, every month AEP makes me pay an additional deposit. They have hundreds of dollars from their deposit fees they make us pay. When i lost my job, i asked them about the program that they offer to customers to help pay for other peoples electric. AEP told me I could donate to the fund. I asked how I might get on the list for a donation, can I fill out an application for help. They said that they have no idea and they could not help me. So if, when people donate to the fund, where does the money go if they do not have a plan to distribute the donations? Stop AEP, help the people. AEP is a huge monopoly and they need to be audited and an investigation will prove that they need stopped.

Sincerely,

KS

I am personally very tired of the taxpayers and consumers of this country having to BAIL OUT BIG BUSINESS!!! I live on a fixed income and struggle to provide a decent life for my mother and myself. Everything continues to increase in cost and my income barely keeps up.
